HISTORY 1968-86

The year 1968 marked the beginning of formal law enforcement training in South Carolina. That year, the state legislature appropriated \$30,000 to SLED to establish the South Carolina Police Academy. A voluntary four-week basic law enforcement training program began and was held at SLED. This thirty-five student arrangement soon proved to be inadequate. In 1970, the state legislature created the South Carolina Criminal Justice Academy. The Police Academy and the Criminal Justice Academy were guided from the outset by F.B.I. veteran, Clifford A. Moyer, until his retirement in June of 1982. Moyer was succeeded by Director John A. O'Leary in September, 1982.

The construction of the 6.0 million dollar Academy was started during the administration of Gov. Robert E. McNair and was financed by state and federal funds; the latter was provided by LEAP and the Highway Safety Program. Classes began in 1972 at the present site. Because four weeks of basic law enforcement training were insufficient, the program was increased to five weeks in 1972, to six weeks in 1973, and later to the present eight weeks.

The Training Division of the South Carolina Department of Corrections moved into the Academy in 1972. Shortly thereafter, training for magistrates and municipal judges as well as for personnel from the Department of Parole and Community Corrections and Department of Youth Services began at the Academy. Similarly, the South Carolina Wildlife and Marine Resources Department and the South Carolina Highway Patrol regularly present instructional programs.

Academy facilities include a precision driving range, 1.3 miles in length. A field operations training area has been developed on the driving range facility. The area includes a log-cabin bank (donated in 1976), a Crisis Intervention House which has the capacity for audio-video training, and other small frame houses, including a mock-up bar. These buildings are used in simulated robberies, family violence scenarios, burglaries, hostage situations, and other offenses that necessitate involvement of law enforcement personnel. The ultimate training mission of the Academy is to duplicate a small town on the training site in order to lend authenticity to all the practical exercises performed there. In addition to the precision driving range, the Academy also operates a modern weapons complex with a classroom and target storage area.

At present, facilities include a cafeteria, dining room, a library, a training tank and gymnasium complete with body-building equipment. During 1979, a three-storied dormitory

wing and a two-storied building were added to provide additional housing and classroom space for criminal justice officers and training staff. Included in the two story building are a Learning Center and a teaching Courtroom equipped with remotely-controlled audio and video capabilities to record and critique courtroom activities.

PURPOSE

The purpose of the South Carolina Criminal Justice Academy, under the direction of the South Carolina Law Enforcement Training Council, is to provide mandated law enforcement and jail operations entry level training within the first year of employment to all law enforcement officers and jail operators in the state. A second purpose is to provide mandated breathalyzer training to requesting law enforcement agencies on an "as needed" basis. A third is to provide administrative and maintenance support to other segments of the Criminal Justice System so that effective training programs may be presented to their personnel from throughout the state and a fourth is to provide voluntary judicial training to county magistrates and municipal judges. Finally, the Academy produces, in cooperation with the South Carolina Educational Television Network, a monthly television program, Crime-to-Court, for the benefit of those who cannot attend classes at the Academy.

ADMINISTRATION

Administrative Services provide (1) training support for departments of the various Criminal Justice Agencies using the Academy for training; (2) support for the permanent staff and faculty employed and used primarily in support of law enforcement training required by the various statutes; and (3) finance and accounting functions to account for funds received by the Council, under the Fine and Forfeiture procedures outlined in the various statutes.

The Academy Administrative Section in FY 85-86 provided logistical support for the various Criminal Justice Agencies which used the Criminal Justice Academy. The Administrative Section also supports the operation of a complete kitchen and a dining room facility. The dining room staff prepared and served over 222,550 meals during the fiscal year using 6 staff food-service supervisors and 11 inmate assistants.

The Finance Department provided its services to the staff and faculty by processing 2,323 purchase orders, 2,851 pay vouchers, 24 payrolls and almost 11,000 remittance forms from the County Treasurers' Offices, and the approximately 700 magistrates, Clerks of Court and City Recorders. Personnel services were provided for some 78 permanent and part-time employees.

MAINTENANCE AND SUPPORT SERVICES

Maintenance and Support Services are provided for all facilities which includes a central location consisting of 135,000 square feet of buildings on 16 acres; a one-and one-third mile vehicle driving range also having 7 buildings on 96 acres; a modern weapons training complex on 46 acres and a fleet of about 49 motor vehicles for training and staff use. Maintenance and Support Services support the operation of a 290 live-in dormitory and also provide security for the physical facility and the supervision of 48 South Carolina Department of Corrections inmates permanently assigned to augment the permanent staff.

In FY 85-86, the Academy maintenance staff, consisting of 11 full-time personnel and 48 inmates, provided maintenance and custodial support for all building and grounds associated with the Academy. The first (user) and second (garage) levels of vehicle maintenance are performed by the staff at a maintenance and repair facility located on the driving range.

INSTRUCTION

To improve the knowledge and skills of law enforcement officers, Criminal Justice Training provides: (1) mandated law enforcement and jail operations entry-level training within the first year of employment to all law enforcement and jail officers in the state; (2) mandated Breathalyzer Training to requesting law enforcement agencies on an "as needed basis"; (3) In-Service and specialized training to personnel from the law enforcement agencies and magistrates' offices throughout the state; (4) all law enforcement agencies access to a training film and video tape lending library and (5) staff supervision of the local Police Department Reserve Officer Training and Certification Program.

FY 1985-1986 EXPENDITURES

TOTAL \$4,059,392

LAW ENFORCEMENT TRAINING

The Minimum Standards Training Act of 1970 required certification for all law enforcement officers having arrest powers and employed by city, county or State governments after January 1, 1972. Excluded initially from this requirement were those from departments of five or fewer officers or where the city had a population under 2,500. This law also establishes selection standards, specifying that a law enforcement officer must...

- present a birth certificate proving that he is at least 21 years old
- have a high school diploma or G.E.D. certificate
- pass a drivers license check proving that he has not, within the last ten (10) years (later changed to five (5) years), been convicted of driving under the influence of alcohol or drugs, or leaving the scene of an accident
- pass a background check which includes proof that he has never been convicted of a felony and has a satisfactory credit rating
- successfully complete basic law enforcement training

This Act was amended by the 1977-78 legislature to require basic law enforcement training for all law enforcement officers hired after July 1, 1978 including chiefs.

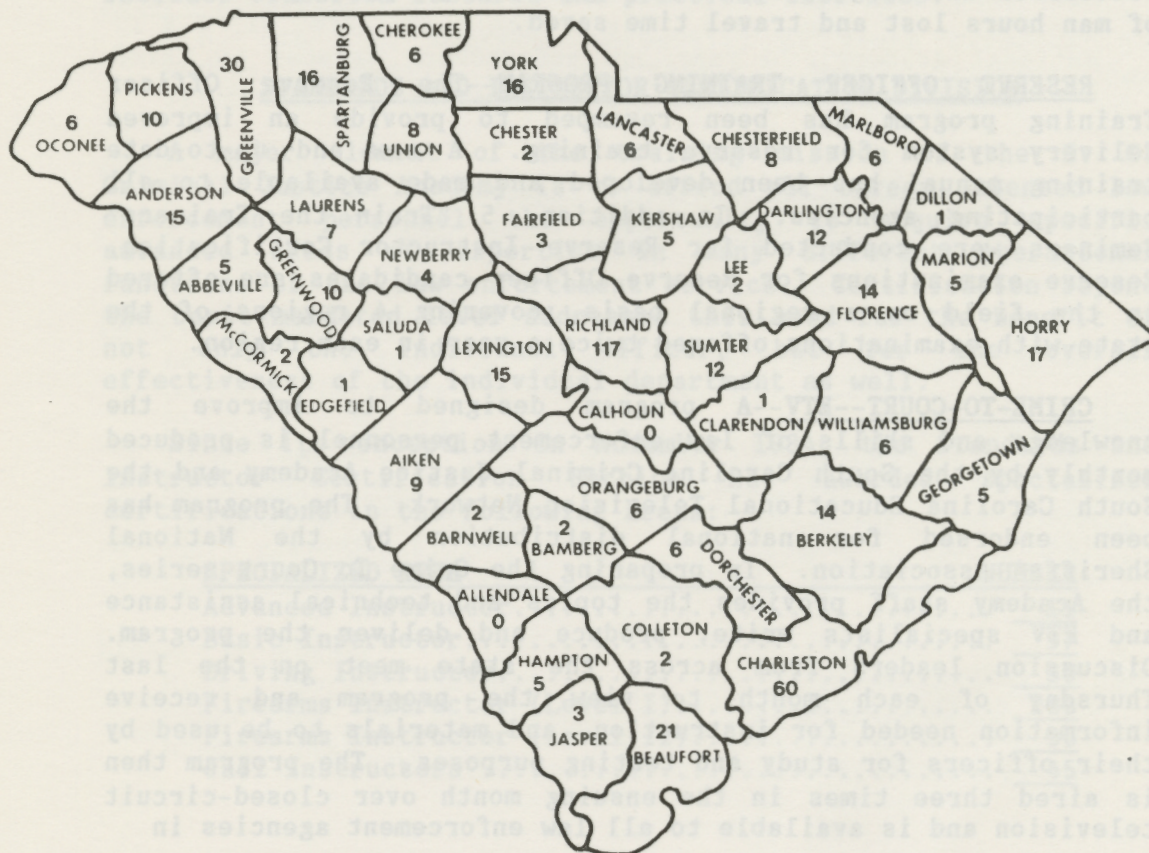

In 1981, Jail and Detention personnel were included in the mandatory training list requiring the same qualifications as law enforcement officers.

There are four divisions of the Academy's Law Enforcement Training Section--Basic Training, Field and Specialized, Range Operations and Standards and Certification.

Basic training for all law enforcement officers currently consists of eight weeks of instruction. Students are instructed in more than 50 subject areas. Law enforcement students must also demonstrate their abilities through various proficiency tests which demand competence in such areas as Searching and Handcuffing, Handling Juveniles, Courtroom Procedure, Traffic Citations and Handgun Safety.

Graduation ceremonies are held at the end of each basic training program. Performance points accumulated from tests (top academically) are tallied at the end of each basic training period. The student having the highest overall total is recognized during graduation as the winner of the J.P. Strom Award. Students having a 96% average or higher are also designated Distinguished Graduates. Based on scores from the Firing Range, the Top Shooter is recognized during graduation ceremonies.

The following map represents the number of law enforcement officers graduating from Basic Training at the Criminal Justice Academy during FY 1985-86. This does not include officers receiving specialized Criminal Justice Training.

FIELD AND SPECIALIZED DIVISION

The Field and Specialized Training Division conducts all specialized training at the Academy complex and at regional locations throughout the state including televised education centers, college campuses and law enforcement agencies.

This function has filled a critical void in law enforcement training since its inception on February 15, 1983, and allows a greater number of law enforcement personnel to receive training than if it were confined to the Academy.

In addition to the many areas and topics conducted by this division, there are four specific program areas under the jurisdiction of this division.

BREATHALYZER--The breathalyzer re-certification program, a critical aspect of continuing patrol operations, is designed to meet field training demands. Therefore, breathalyzer re-certification is conducted on a regional basis covering 4 divisions of the state, with training offered 4 times per year in each individual region. This method has proved very successful and beneficial to all agencies by reducing the amount of man hours lost and travel time saved.

RESERVE OFFICER TRAINING PROGRAM--The Reserve Officer Training program has been revamped to provide an improved delivery system for reserve training. A new and up-to-date training manual has been developed and made available to all participating agencies. In addition, 5 "Train the Trainers" Seminars were conducted for Reserve Instructor Certification. Reserve examinations for Reserve Officer candidates are offered in the field on a regional basis, covering 4 regions of the state with examinations offered twice a year in each region.

CRIME-TO-COURT--ETV--A program designed to improve the knowledge and skills of law enforcement personnel is produced monthly by the South Carolina Criminal Justice Academy and the South Carolina Educational Television Network. The program has been endorsed for national distribution by the National Sheriffs' Association. In preparing the Crime To Court series, the Academy staff provides the topics and technical assistance and ETV specialists write, produce and deliver the program. Discussion leaders from across the state meet on the last Thursday of each month to view the program and receive information needed for instruction, and materials to be used by their officers for study and testing purposes. The program then is aired three times in the ensuing month over closed-circuit television and is available to all law enforcement agencies in

the state either through their department or local schools, colleges or technical education centers. In addition to closed-circuit viewing, each program is available on video tape to requesting agencies.

RANGE OPERATIONS

The Range Division is responsible for all firearms and driver training programs conducted by the Academy in both Basic and Specialized Training. In addition, the Range Division conducts all practical problem programs for the Basic training program.

The Firearms Course is designed to train the law enforcement officer in the proper use of his personal weapons and its mechanics. Curriculum includes classroom lectures, shooting skills and practical exercises.

The Driving Course is designed to fill an important need in training law enforcement officers in the art of professional driving, as well as to reduce motor vehicle accident frequency by improving the officer's attitude and skills. Curriculum includes classroom lectures and practical exercises.

STANDARDS AND INSTRUCTOR CERTIFICATION DIVISION

A major element of the training mission of the S. C. Criminal Justice Academy is to afford all career oriented law enforcement personnel the opportunity to acquire specific advanced areas of expertise in many different operational functions of the law enforcement service. Certification beyond the basic mandated level addresses this need for the benefit of not only the individual officer, but for the overall effectiveness of the individual department as well.

Since its inception in November 1984, the Standards and Instructor Certification Section has awarded specialized certifications in the following areas:

<u>SPECIALIZED AREA</u>	<u>NUMBER</u>
Advanced Instructor.....	<u>11</u>
Basic Instructor.....	<u>97</u>

SOUTH CAROLINA HIGHWAY PATROL

Captain Clyde F. Collins Training Officer

The South Carolina Highway Patrol has its training office located at the Academy where most of its training programs are conducted. Courses of instruction range from Basic and In-Service classes to such specialized courses as Instructor Development, Specialized Accident Investigation, Photography, Breathalyzer, Radar and Firearms.

The Highway Patrol Training section has the responsibility for the selection of new recruits as well as their training. Recruits must successfully complete twelve weeks of basic training before being commissioned or receiving their duty assignments. The Highway Patrol conducts its own Basic Training School which places special emphasis on traffic law enforcement. The Patrol utilized specialized instructors from within its own department to provide most of its training. The Academy provides instructors in such areas as Legals, Breathalyzer, and Auto Arson.

The Highway Patrol has three patrolmen who are assigned full-time duties at the Academy. The Patrol also assists the Academy by providing other patrolmen on a regular basis in various training programs.

SOUTH CAROLINA WILDLIFE AND MARINE RESOURCES DEPARTMENT

Lt. Fritz Jolly Safety and Training Officer

Since all South Carolina Wildlife Conservation Officers have statewide constabulary authority, they must be certified by the South Carolina Criminal Justice Academy. All new conservation officers attend the mandatory eight-week Basic Law Enforcement Training Program at the Criminal Justice Academy, and a five-week departmental training program.

Other In-Service training classes for all South Carolina Wildlife Conservation Officers include periodic review of state laws and interpretations, courtroom procedures, search and seizure, combat pistol firing and self defense tactics. Department personnel apprise officers of new or revised rules and regulations and procedures regarding fish and game laws, along with the public relations aspect of Wildlife Law Enforcement.

In addition, the in-service training has been expanded to include many of the specialized training programs provided by the field training section to include first line supervision, photography and investigators' school.

Initial training for additional Wildlife Department SCUBA (Self-Contained Underwater Breathing Apparatus) divers was undertaken at the Academy. The Aquatic Search and Rescue team periodically undergoes refresher training sessions at the pool facilities at the Academy. This squad of SCUBA trained officers, three-men-per-squad, has been instrumental in a wide scope of successful underwater search and recovery operations. They have not only aided in the recovery of drowning victims but also in locating underwater navigational hazards. In cooperation with other law enforcement agencies, they have assisted in the search and recovery of stolen contraband which has been discarded in the state's waters and have assisted in the training of divers for other agencies.

The Wildlife Department also required its state-wide corps of Deputy Wildlife Conservation Officers to undergo special training dealing with basic law enforcement along with an up-date on Game and Fish Rules and Regulations. This annual training takes place at the Academy.

Also, all full-time departmental employees with commissions (biologists, etc.) will attend special basic classes in order to become certified.

JUDICIAL TRAINING

Mandatory Magisterial Training Jeff Boyd
Court Administration
Voluntary Magisterial Training Henry R. Wengrow
South Carolina Criminal Justice Academy

Pursuant to Rule 35 of the South Carolina Supreme Court, each member of the unified judicial system of this state, with the exception of magistrates and judges, must complete a minimum of 25 hours of legal education per year, accredited by the Commission of Continuing Legal Education. The Commission is authorized, pursuant to guidelines established by the Supreme Court, to determine the number of credit hours which will be given for particular courses and programs.

The Chief Justice of the South Carolina Court issued his order, dated December 30, 1981, which required magistrates and municipal judges to complete a minimum of twelve (12) hours of legal education accredited by the Office of Court Administration.

The Office of South Carolina Court Administration conducts judicial education programs for magistrates. Pursuant to the order of the Chief Justice of the South Carolina Supreme Court, magistrates are required to attend a five day orientation program within four months of appointment and one or two day seminars per year thereafter.

A program of voluntary training for magistrates and municipal judges is conducted at the Criminal Justice Academy under the direction of the Judicial Coordinator. Monthly schools of one or two days duration are given on various topics within the criminal and civil jurisdiction of the magistrates. Schools on criminal jurisdiction topics are open to municipal judges. The program is accredited by the Commission on Continuing Lawyer Competence and those judges who are members of the South Carolina Bar may satisfy their mandatory continuing legal education requirements by attending the judges school.

The program is also accredited by the Office of Court Administration and magistrates and municipal judges may satisfy their mandatory legal education requirements by attending this voluntary training.

The office of the Judicial Coordinator also publishes Practice and Procedure Manuals on specific topics of law, as well as periodic newsletters discussing recent court decisions, opinions and legislation of importance to magistrates and municipal judges.

CORRECTIONAL AGENCIES AND TRAINING

Personnel of several state correctional agencies train at the Academy -- the Department of Corrections, the Department of Youth Services and the Department of Parole and Community Corrections. The Academy provides classrooms, housing, meals and audiovisual equipment for these programs. Some of the programs offered are Basic Training, Orientation, First Aid Training, Drug Education, Youth Counselor Training, Supervisory and Management Training, Communication Skills, Defensive Driving, secretarial programs and various workshops.

DEPARTMENT OF CORRECTIONS

Director of Training W. T. (Tommy) Cave
Administrative Supervisor Ms. Glenda W. Wessinger
Instruction Supervisor John Ferraro

The Department of Corrections conducts its training programs and houses its instructional administration at the Academy. This agency offers many specialized courses in addition to Orientation, Basic Correctional Officer's Training and In-Service training. All employees of the South Carolina Department of Corrections must attend the one-week orientation prior to assuming their positions with the agency and receive an additional forty (40) hours of training in the first year of employment. Correctional Officers must receive on-the-job training and return to the Academy to receive four (4) weeks of Basic Correctional Officer Training. Correctional Supervisors are required to attend Supervisory training within the first six (6) months after being promoted to a supervisory position. All South Carolina Department of Correction employees are required to receive forty (40) hours of job related training every year.

SUMMARY OF ACTIVITIES

The Hall of Fame facility was completed in the Fall of 1979. Formal dedication took place in April of 1980, and the museum was officially open to the public.

The Hall of Fame maintains plaques to S. C. Law Officers killed in the line of duty and museum displays featuring contemporary and historical aspects of law enforcement. The building is open to the public, and organized tours can be arranged for school and civic groups. The Hall of Fame also maintains a film library on topics of Criminal Justice, and these films are used in conjunction with the organized tours.

The Hall of Fame also acquires and maintains historical artifacts relating to law enforcement, and documents the history of the S. C. Criminal Justice System through these artifacts. The exhibits featuring contemporary aspects of law enforcement serve to relate to the public the various trends and functions of law enforcement agencies.

The Melvin Purvis Gun Exhibit, donated to the Hall of Fame, opened in 1985. This exhibit features not only artifacts from the Purvis weapons collection, but also interpretive displays on the era of Melvin Purvis. The Hall of Fame also completed several other new exhibitions, which went on display also in 1985.

A new Hall of Fame maintenance facility was completed in the Spring of 1986. This building complements the Hall of Fame main building and provides storage and work space for the construction of future displays.

The Hall of Fame continued its public safety programs. The year 1985-86 saw the continuation of these programs aimed at grades Kindergarten through Sixth grade. The program topics included "Stranger Danger", "Pedestrian Safety", "Substance Abuse" puppet presentations, audio-visual productions, and student discussion were incorporated into the presentations. Support literature, designed specifically to complement each program, was distributed at the close of each session.

A child molestation program, presented at area public schools, was offered for the first time during fiscal year 1985-86. This program focuses on ages kindergarten through first grade, and was taken to approximately forty schools in Richland and Lexington County. This program will be continued in 1986-87, and has been expanded to include grades 3 - 6th.

In addition to these programs, the Hall of Fame continued programming designed for senior citizens (crime prevention) and high schools and adults (criminal justice system and drunk driving programs).

The Hall of Fame also serves as host to many seminars and meetings throughout the year, especially during the summer months.

In summary, the Hall of Fame provides public safety programs and tours, maintains exhibits relating to law enforcement and the criminal justice system, and maintains a memorial area to S. C. law enforcement officers killed in the line of duty.

HALL OF FAME EXPENDITURES
